

# [assembly instruction multi-part cardboard stool]

# [BOXXCO]

1.

Fold the sides together and lock them in place with the plug-in connection.

2.

Fold up the seats and put the outer flaps into the long slot of the lower flaps.

3.

To reinforce the seat, add the square plate supplied from below.

4.

For the stabilising cross you need 2 of the supplied foot sections.

5.

Insert them into each other at the long slots. The cross is now completely inserted into the stool from below.

6.

To lock the seat, spread the flaps of the cover flaps. Done!

## **[safety instructions cardboard stool]**

**In order not to endanger the safety and health of persons, the following points must be observed when using the corrugated cardboard stools:**

- 1.** Follow the assembly instructions!
- 2.** Observe the load-bearing capacity information on the product!
- 3.** Do not stand on the stool!
- 4.** Do not use in the rain or in a damp environment!
- 5.** Use indoors only in compliance with fire protection regulations!
